

Train-the-Trainer: Employee Development Skills

Overview

Effective employee training requires more than just a slick PowerPoint! This fun, hands-on workshop shows participants how to rapidly develop employee training programs that really work. The class incorporates a variety of interactive learning techniques including a simulation where participants get to design and deliver a mini-training module.

Audience

This workshop is ideal for:

- People who are new to the training and development field
- Supervisors who must develop their employees
- Anyone who wants to brush up on their employee development skills.

Format

Half-day, interactive workshop.

Description

This program takes a “learning lab” approach where participants create and deliver training programs in the class. The following topics are covered:

- ✓ Overview of training and development
- ✓ The ADDIE model for instructional design
- ✓ Classroom management and facilitation skills

Testimonials

Here are just a few comments from participants who attended the workshop:

- *“The best part of the workshop was how interactive it was!”*
- *“The class provided more than the expected knowledge. It was great!”*
- *“I liked how the instructor used outside knowledge and relevant stories/experiences to reinforce the training.”*
- *“I learned to set clear goals and to stop to ensure that learning is occurring and the goals are being met.”*
- *“Very effective training- covered all my expectations and more!”*
